Thompson's List of "Half Castes" in the Northern Territory, 1899-1900

In late 1899 Police Inspector Paul Foelsche gave instructions to Mounted Constable George H. Thompson to "report on the conditions of Aborigines and their relations to other nations" (GOVERNMENT RESIDENT OF THE NORTHERN TERRITORY, NTRS 790, Inwards correspondence, 1870-1912, Bundle 10441, page 4).

Thompson was asked to ascertain the names of all non-Aboriginal persons who were cohabiting with Aboriginal women, with special note taken of cases where such females appeared to be children. He was also to compile a list of all half caste children, comprising their names, gender, approximate age, name of mother, mother's tribe and reported father.

Mounted Constable 3rd Class George H Thompson, accompanied by Police Tracker Paddy and with several horses, commenced his survey in Pine Creek on October 18th 1899, visiting mining camps and other settlements situated between Katherine and Darwin. The task was completed on January 9th 1900.

The list, daily journal and the correspondence between Thompson and Foelsche is included in a report from Foelsche to the Government Resident Hon Justice Dashwood on 7th April 1900. This is filed with the inwards correspondence of the Government Resident's Office. In our list of holdings it appears as Government Resident of the Northern Territory, NTRS 790, Inwards correspondence, 1870-1912. A microfilm copy of the Inwards Correspondence is also available.

The following pages are a typescript of the list which was compiled by Mounted Constable George H. Thompson. A copy of the original list follows at the end.

This typescript is an exact copy of the original. The spelling of people's names, tribes and locations may differ from current conventional use. If comments have been added to allow clarification they are in square brackets [].
